Notes:

These are the committees that were identified at the strategic planning sessions. Some members of the organization have been assigned to chair position and others have offered to help. All members asked to contribute effort to the goals, objectives, and the individual action items necessary to meet our mission and realize our vision.

The bulk of the work and progress realized by this organization is done by these standing committees and work groups. In the coming months, the Training and Education, Finance and Funding, and the Policies, Procedures, and Guideline committees will require many more members than those that are identified here. There are many statewide operational concerns the fire service in Wisconsin need to have dialogue on. Find your niche and volunteer your services to make the fire service better.

Thank you,

Brian M. Satula, President
MABAS-Wisconsin
